Blackpoint Cyber’s 24/7 managed detection and response (MDR) platform combines network visualization, tradecraft detection, and endpoint security to rapidly detect and neutralize lateral movement in its earliest stages.

Faster than any other solution on the market, we designed our technology with MSP objectives and workflows in mind. Our MDR solution harnesses metadata around suspicious events, hacker tradecraft, and remote privileged activity to catch what others miss and take real action before cyber threats can spread.

The only constant in the threat landscape is that it is always changing. As threat actors target the MSP community, building up a strong cybersecurity strategy is crucial. Don’t bulk up your security stack with ineffective, non-scalable tools. Take a proactive, offensive approach to stay ahead of cybercriminals by adding continuous monitoring, real-time threat detection, and active response to your arsenal.

At Blackpoint Cyber, we win the unfair fight by giving hackers hell and helping our MSP partners protect what’s most important to them. Our mission? Provide unified, 24/7 Managed Detection and Response services to organizations around the world.
When an attack occurs, detection and response times determine whether attackers succeed in their efforts. Blackpoint offers true, 24/7 MDR fights back threats within minutes and closes the gap between the identification of an event and the actual response and remediation. By immediately isolating endpoints, Blackpoint’s technology stops the threat from moving laterally into other systems.

24/7 Incident Monitoring & Response
Established by former US government cybersecurity operators, the Blackpoint SOC leverages its deep knowledge of hacker tradecraft and real-world cyber experience to provide absolute and unified detection and response services. Our fully managed SOC team monitors your unique environment around the clock so you can focus on running your business.

Rapid Agent Deployment
Our world-class, nation state-grade cybersecurity ecosystem is designed to serve our partners by completing the hard work for you. While other services on the market take days and weeks to tune events, we offer same-day agent deployment and start protecting your diverse environments within minutes. Trust Blackpoint Cyber to provide a streamlined on-boarding experience so you can get coverage without compromising your efficiency.

See Blackpoint MDR in action
Rely on Blackpoint for effective, high-performance, and robust cybersecurity that protects against today’s and tomorrow’s threats. Win the unfair fight with us in your corner.
